Jason Laske

Tech Lead & Senior Software Engineer | Building Scalable Solutions
| Driving teams to Deliver Impactful and Innovative Software | Full-Stack Developer with Expertise in Backend Development | Agile Methodologies

Rochester, New York, United States

Summary

I am a seasoned Tech Lead and Senior Software Engineer with a passion for building scalable, secure, high-performance systems. I have extensive experience in microservices architecture leveraging AWS cloud technologies.

I've led cross-functional teams through the entire software development lifecycle, delivering impactful, high-quality solutions.

Throughout my career, I've worn many hats, from designing robust systems, writing clean, efficient and testable code, to managing agile teams as a Scrum Master.

I thrive in collaborative environments and enjoy mentoring developers to grow their technical and soft skills.

I'm always seeking opportunities to innovate, solve complex challenges, and contribute to the success of teams and organizations.
